OUR FACULTY

All members of our faculty are native speakers and specialize in ELT instruction. Many carry advanced degrees and certifications within the ESL industry. Collectively, our instructors have taught in over 50 countries and carry decades of experience teaching non native English speakers.

TECHNOLOGY IN THE CLASSROOM

LASC prides itself in being one of the most forward thinking language schools. Much of our curriculum is e-based and students complete homework, assignments, and classroom activities using their smartphones. Teachers are able to use our Learning Management System to easily track student progress, share resources with other teachers, and gain powerful insight into the newest learning modalities. In addition, LASC is also one of the first private language schools to utilize virtual reality in the classroom where students can practice English by immersing themselves in everyday situations.

CAMBRIDGE BASED CURRICULUM

Our ESL program comprises six levels of proficiency based on a six point scale, from A1 for beginners up to C1 for the more advanced in accordance with International Standards of English Proficiency and Cambridge English Assessment. Our curriculum is corpora informed and ensures our students learn the most frequently used words and structures as they become confident English speakers.

PATHWAY TO COLLEGE

LASC currently partners with over 30 colleges and universities located in Southern California and throughout the United States. Students enrolled in our program are able to gain conditional acceptance into various institutions of higher learning. Students who complete our ESL program are eligible to enter college or university under reduced criteria and are not required to take the TOEFL or IELTS exam to be admitted.
